OUR MISSION

A non-profit network of 16 public interest justice centers in the U.S. and Mexico, Appleseed is dedicated to building a society where opportunities are genuine, access to the law is universal and equal, and government advances the public interest.

Appleseed uncovers and corrects injustices and barriers to opportunity through legal, legislative and market-based structural reform. Working with

our significant pro bono network, we identify, research and analyze social injustices, make specific recommendations, and advocate for effective solutions to deep-seated structural problems. Together, Appleseed and Appleseed Centers form a network for positive change, building a society that provides each individual access to justice and a genuine opportunity to lead a full and productive life.
